ANARCHY REIGNS IN THE LAND OF THE MUSCOVITE

Sailors and Strikers Battle With the Soldiers at Odessa.

Mayors of the Large Cities Assembled at Moscow Demand a Constitution—Empire Seemingly in the Throes of Revolution.

St. Petersburg, June 29.-It is reported that the volunteer fleet cruiser Saratoff has been burned at Odessa.

Admiral Kruger's squadron is expected to arrive at Odessa tonight. His orders are to summon the Kniaz Potemkine to surrender, and upon her refusal to sink her, after which he is to assist in restoring order in the town.

Odessa, June 29.—The crew of a government transport which arrived here today from Nickolieffa mutinied, seized their officers and joined the crew of the battleship Kniaz Potemkine, to whom they turned over the captain and It is understood that foreign consuls have applied to their respective gov-ments to send warships to Odessa.

St. Petersburg, June 29.-The action of the mayors assembled at Moscow st. Petersourg, June 29.—The action of the mayors assembled at Moscow in discarding the zemstvoists' programme and pronouncing boldly for a constitution is another poser for the government. With war and rebellion at Odessa, the whole country in a ferment, and the elected mayors of the large cities demanding a constitution, the government appears to be almost driven into its last entrenchments.

Libau, Government of Courland, Russia, June 29.—The Russian sailors here mutinied last night, attacked the government stores, seized the arms and fired into the officers' quarters. Infantry, artillery and Cossacks were brought to the seene of the fighting, but the result is not known. Intense excitement

Thus far the only incident reported this evening, beside the burning of the Central rallway station, is the explosion of a bomb in a private house by which several persons were injured; but it is impossible to get precise information which cannot be definitely confirmed, are current regarding Wednesday night's rioting. In these accounts it is stated that no fewer than 1,000 people were killed. The troops faced a position of complete anarchy, thousands of desperate incendiaries trying to set fire to every building. FRANTIC AUTOCRACY.

Recent Events Have Almost Par-

alyzed the Government. St. Petersburg, June 30, 2:58 a. m.—
The Russian government, although it has been almost paralyzed by the terrible events at Odessa and the news that the sailors at Libau also have mutinied, is making desperate and even frantic efforts to meet the situation and stamp out the flames of revolution before they can spread to the crew of the battleship thad been sentenced by it.

The accepted version in St. Petersburg, Ida, in the first week of July by direction of Attorney General Moody, and through the request of Secretary of the Interior Hitchcock.

The special term of court and special grand jury are made necessary by the fact that the summer term at Lewiston has adjourned without action being informed of the situation, returned and led their comrades against the other officers, whom they placed in irons.

With Poland red with the spirit of olt, the Caucasus already almost in a state of civil war, agrarian disorders spreading rapidly, the whole country profoundly stirred and the intelligent class solidly arrayed against the gov-ernment, all conditions seem ripe for the long-predicted revolution.

Trying to Stem the Tide.

The first act of the government after dispatching Admiral Kruger's squadron from Sebastopol, was to summon

The newly formed council for imperial defense met last night under the presidency of Grand Duke Nicho is great fear that many regiments are honeycombed with sedition, and there is grave doubt of their loyalty should they be called upon to fire on the revolutionists. Indeed, the most startling stories involving the unreliability of the troops are being repeated in St. Petersburg, but the truth of many of Petersburg, but the truth of many

and the people in general is problem-atical and is puzzling the press. The precautions taken by the authorities to morning a large body of rioters tried to enter the central part of the town by way of Polish hill, and that a terrible fusilade was kept up by both sides with rifles and revolvers. It is also alleged that hundreds were killed, and that when the mob tried to ascend the the three most confines of European Russia. Situation Not Clear.

Dispatches received here from Odessa do not make the situation very clear. Millions of dollars' worth of property, including ships, has been burned or otherwise destroyed. The city is terror-stricken and many, probably hundreds, have been killed or wounded in the street fighting. The fact that the troops and police made no attempt to interfere with the burial of the martyred sailor is considered to be conclusive evidence that they either felt themselves powerless or feared to make the attempt on account of the attitude of the populace.

of the populace.
Under cover of the darkness pro-luced by the dense pall of smoke hanging over the city, it is reported, the mob has begun to sack and plunder. Foreign property has suffered heavily.

There were a number of isolated disturbances. George T. Knox, a notary, was struck on the head with a stone and suffered a scalp injury because he was reading the boycotted paper. A number of Bulletin carriers were assaulted. Other persons suffered indignities and injuries but did not report their cases to the police.

A deputy sheriff who was guarding an old woman who sells newspapers was attacked a number of times, but beat off his assailants. The woman was roughly handled.
